MD RADIodiAGNOSIS
(Revised Scheme)
PAPER – I

Q.P. CODE: 7461
Your answers should be specific to the questions asked
Draw neat labeled diagrams wherever necessary

LONG ESSAYS
1. Discuss the basics principle of Magnetic Resonance Imaging.

2. What are the causes of hip pain in early childhood? Discuss the imaging findings in congenital dislocation of hip/Developmental dysplasia of hip.

SHORT ESSAYS
3. Segmental anatomy of liver and its importance
4. Computed Radiography versus Digital Radiography
5. PACS
6. CT scan detectors
7. Radionuclide scan in evaluation of a skeletal lesion
8. Degenerative disc disease

*****
LONG ESSAYS

1. Classify adrenal lesions. Discuss various imaging modalities in diagnosing adrenal lesions including CT and MRI.

2. Describe the technical aspects of HRCT of the lung. Describe the CT imaging features of collagen vascular diseases in lung.

SHORT ESSAYS

3. Write short note on MDCT protocol of evaluation of liver.

4. Ultrasound and Doppler sonography in portal hypertension

5. Barium findings in coeliac disease

7. Different shadows in radiographs of ICU patients

8. CT severity index of acute pancreatitis
MD RADIODIAGNOSIS
(Revised Scheme)
PAPER – III

Q.P. CODE: 7463
Your answers should be specific to the questions asked
Draw neat labeled diagrams wherever necessary

LONG ESSAYS
1. Discuss the appearances of malignant breast lesion with the help of different imaging modalities.

2. What are the causes of deep vein thrombosis? Discuss merits and demerits of various imaging modalities used in evaluation of DVT.

SHORT ESSAYS
3. Bronchial artery embolization
4. Retroperitoneal fibrosis
5. Imaging in aortic dissection
6. Xanthogranulomatous pyelonephritis
7. Doppler findings in mid Superficial Femoral Artery (SFA) occlusion with reformation of distal SFA
8. Left atrial myxoma

*****
MD RADIODIAGNOSIS
(Revised Scheme)
PAPER – IV

Q.P. CODE: 7464
Your answers should be specific to the questions asked
Draw neat labeled diagrams wherever necessary

LONG ESSAYS
1. Classify and enumerate different supratentorial tumours in adults. Describe in
detail the imaging features of Glial tumours.
2. Enumerate the causes of non traumatic intra axial hemorrhage. Describe in
detail their CT & MRI imaging features.

SHORT ESSAYS
3. ADEM
4. Neurocysticercosis
5. cholesteatoma
6. CNS sarcoidosis
7. Herpes simplex encephalitis
8. Sinonasal anatomic variants

*****
