

A NATIONAL CONSULTATION ON AI READINESS FOR HEALTHCARE, EDUCATION & RESEARCH

16th AUGUST 2026
Eros Hotel, Nehru Place, New Delhi

Building Responsible, Ethical & Future-Ready AI Ecosystems for Healthcare

Dear Esteemed Colleagues,

Subject: Invitation to Participate in the National Consultation on AI Readiness for Healthcare, Education & Research

As Artificial Intelligence is rapidly transforming healthcare, medical education, and research, the need for structured AI readiness, ethical frameworks, and practical implementation through regulated AI standards has become more important today than ever before.

The widespread involvement of AI literacy among healthcare leaders, medical educators, researchers, policymakers, hospital administrators, and healthcare professionals shall play a vital role in preparing our healthcare delivery systems for a patient-care-oriented transformation.

Under the auspices of NMAIM, a commitment towards bringing AI literacy among healthcare professionals, a National Consultation on Standards in Medical Education and an AI Literacy Bootcamp is being organised on 16th August at Hotel Eros, New Delhi.

This conference shall focus on creating meaningful dialogue around developing AI readiness standards in undergraduate medical education, postgraduate medical training, faculty digital competency, institutional digital infrastructure, ethics, governance, and responsible AI adoption.

The conference shall include a practical AI Literacy Bootcamp for healthcare professionals, expert panel discussions, and keynote addresses by national-level educationists. It shall also serve as a way forward in preparing AI-ready medical institutions and AI-ready medical graduates for the future of healthcare.

On this occasion, we shall also honour a few distinguished medical educationists through the Peacock Medical Education Excellence Awards, for which all applications and nominations shall be evaluated and scrutinised by an expert jury panel.

I call upon you to kindly join this national consultation and AI Literacy Bootcamp and also nominate distinguished teachers whom you believe should be recognised at this national summit.

Warm regards,

Dr. Prem Aggarwal
Chairman, Medical Dialogues
President, National Medical AI Mission (NMAIM)
